

Free PHP Groupware: How to install and configure Tine 2.0 with ActiveSync for Calendars and Contacts

Posted: April 26, 2011 at 9:34 pm | Tags: calendar sync, contact sync, free groupware, free groupware activesync, free groupware iphone sync, free iphone calendar sync, groupware, groupware activesync, groupware iphone sync, groupware smartphone sync, groupware sync, groupware tutorial, iphone activesync, iphone calendar sync, task management, tine 2.0, tine 2.0 tutorial, tine activesync, tine iphone sync, tine20, tine20 activesync, tine20 iphone sync, tine20 microsoft-server, tine20 tutorial

INTRODUCTION

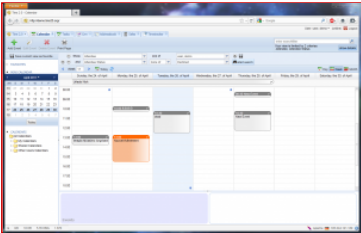

Tine 2.0 is a free, useful web-based groupware application with the following main features:

- Address Book
- Calendar
- Email (you can add multiple external email accounts)
- Task Management
- CRM
- Time Tracking

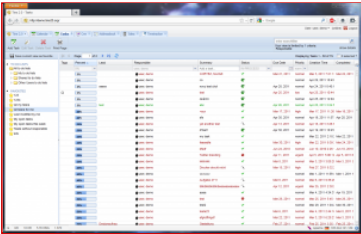

Tine 2.0 also supports ActiveSync, which allows you to sync mail, contacts and calendar events to and from your Smartphone (such as an iPhone).
